### 6 Month Smiles

#### WHAT IS SIX MONTH SMILES?

Six Month Smiles is a short term orthodontic treatment with a modern and innovative twist on various different tried-and-true orthodontics.

It is widely acknowledged that braces provide the best method for achieving straight, healthy, beautiful teeth. Six Month Smiles has taken the best aspects of traditional braces, yet modified the materials and treatments in order to provide the patient with an aesthetically pleasing, cosmetic solution to suit your lifestyle.

---

#### WHAT MAKES 6 MONTH SMILES DIFFERENT?

- ◆ There is an average treatment time of only 6 months.
- ◆ Six Month Smiles Lucid-Lok® clear braces and tooth coloured wires are barely visible.
- ◆ Use of braces has shown to provide the most conservative and predictable final result.
- ◆ Low forces and short overall orthodontic treatment times increase comfort, safety and hygiene.
- ◆ Six Month Smiles Patient Tray Kits™ ensure that your appointments are fast and comfortable.
- ◆ Six Month Smiles are typically less expensive than traditional braces, aligner therapy or veneers.

#### HOW CAN PDS HELP YOU?

We have specially trained dentists in the 6 Month Smiles treatment system. If you're over 16 years of age, you may be suitable for treatment. Please note that this solution is not designed for major alterations, but rather cosmetic changes to crooked or spaced teeth. Generally we find that most people are candidates for 6 Month Smiles. If you have any queries about the treatment or your eligibility for the treatment, please ask your PDS dentist.

**Treatment prices start from £2950.**
